The University of Arizona Men's Basketball team has reached the Elite 8 after one of the most exciting games in Arizona basketball history. They face the Missouri Tigers who knocked off the #2-seed Kansas in a stunning game. The Jayhawks were number 2 overall in the ESPN bracketology and entered the tournament as favorites, but came in with a loss in their last game to Rhode Island. They entered the game ranked 5th in the Final Poll and were indeed the best prepared team in the tournament. But as is too often the case, the luck of the draw turned in this case. Missouri was the only 1-seed to beat the 2-seed this year, but the Wildcats faced the Big 12 Champs and handed them a shocking upset loss in the Big Ten Championship. There was a lot of pressure on those Missouri Tigers since they had the chance of playing for the Final Four. So it was fitting when the game came down to this overtime. The Wildcats outscored the Tigers 30-15 in the final period in the game, and got the win. The Wildcats had a #2 scoring offense and a top 5 defense. It was the first time since the Utah game in March that the UA has recorded an offensive rating of 130 or better. It was also the first time the UA had held a team under 100 points. The Wildcats had the #1 defense in the nation, holding opponents to just 47.9 points per game. Mo had a 68.5-percent field goal, but a 4.2 PER. They also shot 2.4 threes per game, and had a 62.8 eFG%. Yet, the Tigers won by the smallest of margins. The great Jalen Brunson did a great job in the title game, scoring a team-high 20 points to go with 5 assists. Brunson also led all the Wildcats with 8 rebounds and had a game-high 7 assists. The great Ka'Darryl Chaney also had an excellent game, with 16 points and 5 rebounds. He also had a team-high 4 assists. Tyler Dorsey had 14 points, while others chipped in with decent numbers. Dorsey was the only Wildcat with 4 threes made. There were a ton of positives from the performance of the team. They shot a 33.7 FG% and a 30.3 FT%. They only had 5 turnovers on a

Q: De-humidify air in a small space I've got a small bathroom that's getting pretty moist. It's a decent sized room, but the ceiling and wall joints are very narrow, and the room is pretty dark (low light). What's the best option for improving the quality of the air in this small room? Tub + Floor Exhaust Fan Tub and Fan A: In the absence of a larger ventilation system, simply installing a ceiling fan would be effective in dehumidifying the air, provided it doesn't produce too much noise. You could keep the blades half-way off to create an airflow in the bedroom that would help with the humidity but would not air it out completely. The window, while it would help, is a fairly indirect method and won't actually be able to help in a room with only one window. The ceiling fan would be more effective. Katz will also executive produce and serve as a writer. The project marks Thompson's first professional producing effort. He co-starred in the Broadway production of Newsies in 2012. His other credits include 16 Blocks and Drop Dead Diva. State agencies to let children have mobile health care Published 6:00 pm, Sunday, February 14, 2013 Photo: Q.T. SSD Screenshots: It may sound a little crazy to choose a form that is as old as your laptop over a new shiny computer. But the advantages of this method are too big to be neglected.
