Prairie Pubs To Raise Thousands To Help Special Needs Kids St. Paul-based restaurants Prairie Pubs and Muddy Waters Pub & Brewing Co. will host a food and drinks event on Friday, May 31. The crowdfunding drive will raise more than \$15,000 for the American Special Kids Association (ASK). "We've always supported charities in the community and we're excited to be able to support a good cause," said Jordan Morse, general manager at Prairie Pubs. "ASK is a great organization that provides important resources and services for children and families throughout our community." The funds will go towards a scholarship fund. "There are very few opportunities for children and adults with special needs to attend a higher education institute," said Executive Director Debbie Allison. "The funding we receive from Prairie Pubs and Muddy Waters will help us to provide much-needed aid for the families who are paying the steep price of having a child with special needs." For more information and to donate to the drive, visit the ASK website. NELSON'S GRAMMAR The fourth of the British Poets we will study in this book, William Wordsworth composed this poem, one of many in the "Lines written a few miles above Tintern Abbey" sequence. Tintern Abbey, near Tintern in the UK, is a beautiful, ruined Cistercian monastery and home of Word Occ13bf012

The first step of any attempt to visualize a JPEG image is to load the data into software that can interpret the JPEG format. There are several available programs, notably PeaZip JPG Decoder (PBJPGD) and libJPEG, but I recommend GNU Image Manipulation Program (GIMP). GIMP is an open-source image editing software package, freely available to all users. The GIMP source code is available for Unix. Livy: Work Week 4 Week 4 of the 80-hour work week begins today as we work away at the remaining minor research items. The one thing that is true in all of the research we have done so far, whether the research is on policy, history or finance, is that it is quite complicated, especially in a broad sense, and especially in the time periods we are working with. We do not intend to do anything new, only to contribute to the work of previous scholars. Thus we are very happy to have gotten a nice grant from the J.H. Whitney Foundation for our research on the basics of the Soviet economy. We have approximately three years to do the research, so we expect to keep up a good pace. The paper should take at least three years to complete and will be open access. (The Whitney Foundation is an important advocate of open access.) And, as a side project, we will be completing an article on the history of the American economy in the last two centuries. The article will be along the lines of Smith, Kindleberger and others, but considerably less broad. The work on the American economy will not be written this summer, however. One of the flaws of the 80-hour work week is that you have to commit early enough to write something before the 80 hours are up. Anyhow, there is not a lot of time left, so best of luck to you, all the best, and follow us on Twitter @staulius. 9 comments: Hi Michael, Good luck with your research. The AP makes students' life miserable during the winter semester with all its paperwork and bureaucracy. It is bad enough that teachers do a lot of that work, but students should not be made responsible for every time a professor or teacher is being dinging for things to sign. Your research is important and will be of benefit to many. Best of luck. Thanks, George. Hopefully the 80-hour work week won't result in a lot of instructors taking on paper-pushers, but I suppose we'll see what happens. Interestingly, in my previous degree program, a lot of professors were protesting student exams being cancelled because the exams conflicted with office hours. The sheer number of exams, which is where most
